**INTERIM RATE ADJUSTMENT**

A 3.8 percent increase will be added to the sum of the following, as applicable: Customer Charge, Energy Charge, Demand Charge, Fixed Charge, Facilities Charge, and the monthly Minimum Charge.

**MANDATORY AND VOLUNTARY RIDERS:** The amount of a bill for service will be modified by any Mandatory Rate Riders that must apply or Voluntary Rate Riders selected by the Customer. See sections 12 through 14 of the electric rates for the applicability matrices of riders.

**DEFINITIONS OF SEASONS:**

Summer: June through September.  
Winter: October through May.

**NON-METERED & 1000 WATTS AND UNDER SERVICE:**

**NON-METERED SERVICE:** For applications where no metering is installed, the applicable lower monthly Customer Charge shall apply. For purposes of applying the appropriate customer service charge, one Customer Charge shall be applied for every point of delivery. A point of delivery shall be any location where a meter would otherwise be required under this schedule.

**1000 WATTS AND UNDER NON-METERED SERVICE:** For applications where customer owns and operates multiple electronic devices such electronic devices are: 1) individually located at each point of delivery, 2) rated at less than 1000 watts or as specified in contract, and 3) operated with a continuous and constant load level year round. Each individual electronic device must not in any way interfere with Company operations and service to adjacent customers. This optional service is not applicable to electric service for traffic lights, civil defense-fire sirens, or lighting. Company reserves the right to evaluate customer requests for this optional service to determine eligibility.

R  
  
N  
N  
N

In place of metered usage for each device, customer will be billed for the predetermined energy usage in kWh per device. The energy charge shall equal the sum of the predetermined energy usage for customer's approved devices in service for the billing month multiplied by the Energy Charge applicable for the billing month. Customer shall contract for this optional metering service through an electric service agreement with Company.

**TERMS AND CONDITIONS:** The customer may remain on the Small General Service schedule as long as customer's maximum demand is less than 20 kW. When the customer achieves an actual demand of 20 kW or greater, the customer will be placed on the General Service schedule (section 10.02) in the next billing month. A customer with a billing demand of less than 20 kW for 12 consecutive months will be given the option of returning to the Small General Service schedule.

**DETERMINATION OF DEMAND:** Unless otherwise established, the billing demand shall be the maximum demand in kW as measured by a demand meter, for the highest 15-minute period during the month for which the bill is rendered.
