**FACILITIES CHARGE:** Customers served under this tariff shall pay an annual fixed charge equal to 18% of the dedicated investment of the Company in the extension of lines, including any rebuilding or cost of capacity increase in lines or apparatus and other annual expenses necessitated to receive service at this rate.

Alternatively, customer may prepay the installation and cost of the equipment and shall pay an annual fixed charge equal to 3.5% of the investment of the Company, in lieu of the 18% annual fixed charge.

In either option, equipment remains the property of Otter Tail Power Company. This charge shall be reviewed if additional customers are connected to the extension within five years. An agreement will be entered into with each customer, specifying the investment necessary to supply service and the fixed charge. The annual fixed charge will be billed in 12 equal monthly installments, plus all other charges.

**MANDATORY AND VOLUNTARY RIDERS:** The amount of a bill for service will be modified by any Mandatory Rate Riders that must apply or Voluntary Rate Riders selected by the Customer. See sections 12 through 14 of the electric rates for the applicability matrices of riders.

**CONTRACT PERIOD & AGREEMENT:** The Contract Period shall be 5 years.

Because of the investment needed to provide service the Company shall enter into a written agreement with each customer served at this rate and the customer shall agree to pay for service at this rate for a period of five years.

If, during the terms of such agreement, the Company shall establish a superseding rate for this service, the customer shall be billed at the superseding rate for the balance of the term of his contract and shall comply with all terms and conditions of the superseding rate. Unless there is additional investment by the Company, there shall be no change in the amount of the fixed charge during the term of such agreement regardless of the provisions of any superseding rate.

An agreement will be entered into with each customer, specifying the investment necessary to supply service and the fixed charge.
