

MUNICIPAL PUMPING SERVICE

DESCRIPTION	RATE CODE
Secondary Service	30-871
Primary Service	30-874

REGULATIONS: Terms and conditions of this tariff and the General Rules and Regulations govern use under this schedule.

AVAILABILITY: This rate schedule is available to non-seasonal municipal or other governmental loads only. It shall apply to electric service for motor driven pumps for use at water pumping and treating plants, sewage disposal and treating plants, sewage lift stations and may be extended to all lighting and other electrical requirements incidental to the operation of such plants and lift stations at those locations. Municipal buildings adjacent to, but not incidental to the pumping operation, may not be served at this rate, however the Company reserves the authority to extend service under this tariff in cases where it is not practical to separately meter small loads adjacent to this service.

The rate schedule and monthly minimum shall apply to each meter in service except that where service through a meter is for electric space heating only the energy on this meter shall be added to the pumping meter for billing purposes. Seasonal service is not permitted.

RATES: The Company retains the authority to allow combined billing at locations where an approved single phase electric space heating load is metered separately from the three phase pumping load. In all other cases the monthly minimum shall apply to each meter providing service under this tariff.

SECONDARY SERVICE		
Customer Charge per Month:		\$0.00
Monthly Minimum Bill:		\$8.00
Facilities Charge per Month:		
Maximum Monthly kWh <1150		\$1.00
Maximum Monthly kWh 1150-7500		\$5.00
Maximum Monthly kWh >7500		\$15.00
Energy Charge per kWh:	Summer	Winter
	5.825 ¢/kWh	5.382 ¢/kWh
