Holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

TERMS AND CONDITIONS: The use of this rate requires that special precautions be taken in the design of associated metering and control systems. The following terms and conditions describe these precautions and shall be followed on all Customer-owned small qualifying facilities (SQF).

1. The Customer will be compensated monthly for all energy received from the SQF less the Customer charge. The schedule for these payments is subject to annual review. T
2. If the SQF is located at a site outside of the Company's service territory and energy is delivered to the Company through facilities owned by another utility, energy payments will be adjusted downward reflecting losses occurring between the point of metering and the point of delivery.
3. If required, a separate meter will be furnished, owned and maintained by the Company to measure the energy to the Company. Separate monthly charges may apply for any additional metering installed by the company at the Customer's request. T

4. The SQF shall make provisions for the installation of Company owned on-site metering. All energy received from and delivered to the Company shall be metered. Onsite use of the SQF output shall be unmetered for purposes of compensation unless the SQF desires to sell all its generated output to, and purchase all of its energy from, the Company. T

- 5. In the event the SQF desires wheeling by the Company of the SQF output, arrangements will be made subject to special consideration.
- 6. The Customer shall pay for any increased capacity of the distribution equipment serving him and made necessary by the installation of the generator.
- 7. Power and energy purchased by the SQF from the Company shall be billed under the available retail rates for the purchase of electricity. T
- 8. The generator output must be compatible with the Company's system. The Customer's 60 hertz generator output must be at the voltage and phase relationship of the existing service or of one mutually agreeable to the Company and the Customer. T
- 9. The Customer will provide equipment to maintain a 100% power factor (+ or - 10%) during periods of generator operation.
- 10. The Company reserves the right to disconnect the Customer's generator from its system if it interferes with the operation of the Company's equipment or with the equipment of other Company Customers.
- 11. The Customer is required to follow the Company's interconnection process which requires that prior to installation, a detailed diagram of the generator and related equipment must be furnished to the Company for its approval. T
T
- 12. The Customer shall execute an electric service agreement with the Company which may include, among other provisions, a minimum term of service.
- 13. The SQF shall indemnify and save harmless the Company from and against any and all claims for damages to property and injury or death to persons which may arise out of or be caused by the erection, maintenance, presence, operation or removal of the SQF or by any related act or omission of the SQF, its employees, agents, contractors or subcontractors. The SQF will keep in force, liability insurance against personal or property damage due to the installation, interconnection and operation of its electric generating facilities. The minimum amount of insurance coverage will be \$300,000.
- 14. Equipment shall be provided by the Customer that provides a means of preventing feedback to the Company during an outage or interruption of that system as well as a visible means to disconnect the generator from the Company that is readily accessible by T

- Company employees. T
- 15. The Customer shall install, own and maintain all equipment deemed necessary by the Company to assure proper parallel operation of the system.
- 16. Except in cases of emergency, the Customer will be notified in advance, personally or by telephone, whenever a disconnection of their generating facility is necessary. They will also be advised of the reason for, and the estimated duration of, the outage.
- 17. Any renewable energy credits associated with the renewable energy sold to the Company will be transferred to the Company and the renewable generator will be compensated an additional payment of \$3.00/MWh (\$0.00300/kWh), as shown in the payment schedule. C
