

Fergus Falls, Minnesota

SMALL GENERAL SERVICE

Under 20 kW

DESCRIPTION	RATE CODE
Metered Service – under 20 kW – Secondary Service	M404
Metered Service – under 20 kW – Primary Service	M405
Non-metered Service - 1000 Watts or less – Secondary Service	M408
– CLOSED TO NEW INSTALLATIONS	

RULES AND REGULATIONS: Terms and conditions of this electric rate schedule and the General Rules and Regulations govern use of this service.

APPLICATION OF SCHEDULE: This schedule is applicable to Three-phase Residential Customers, and both Single- and Three-phase nonresidential Customers. This schedule is not applicable for dusk to dawn outdoor lighting. Emergency and supplementary/standby service will be supplied only as allowed by law.

MANDATORY AND VOLUNTARY RIDERS: The amount of a bill for service will be modified by any Mandatory Rate Riders that must apply and by any Voluntary Rate Riders selected by the Customer, unless otherwise noted in this schedule. See Sections 12.00, 13.00 and 14.00 of the Minnesota electric rates for the matrices of riders.

DEFINITIONS OF SEASONS:

Summer: June 1 through September 30.
 Winter: October 1 through May 31.

TERMS AND CONDITIONS: The Customer may remain on the Small General Service schedule as long as Customer's maximum Demand does not equal or exceed 20 kW for more than two of the most recent 12 months. If the Customer achieves an actual Demand of 20 kW or greater for a third time in the most recent 12 months, the Customer will be placed on the General Service schedule (Section 10.02) in the next billing month.

SEASONAL SMALL GENERAL SERVICE:

1. These rates and regulations shall apply to Seasonal Small General Service without Voluntary Rate Riders. C
2. Seasonal Small General Service Customers will be billed at the same rate as Small General Service Customers, except as follows:

A one-time seasonal fixed charge of \$74.00 will be billed for each Meter in addition to the rate provided above. The fixed charge will be included on the first bill rendered for each season.

Each Seasonal Small General Service Customer will be billed for the number of months each season that the property is in use, but not less than a minimum of four months, plus the seasonal fixed charge. At the option of the Company, Meters may be read during the off-season and a bill will be rendered if Energy recorded on the Meter exceeds 400 Kilowatt-Hours. If the first bill of the season exceeds an average combined usage on all meters of 400 Kilowatt-Hours per month during the off-season months, the Customer, at the option of the Company, may no longer be eligible for Seasonal Small General Service. Bills may be rendered on a two-month basis at the Company's discretion when the Energy used exceeds 400 Kilowatt-Hours and more than 55 days have elapsed since the previous Meter reading. N

NON-METERED 1000 WATTS AND UNDER SERVICE:

For applications where no metering is installed, the applicable lower monthly Customer Charge shall apply. For purposes of applying the appropriate Customer service charge, one Customer Charge shall be applied for every point of delivery. A point of delivery shall be any location where a Meter would otherwise be required under this schedule. C

For applications where Customer owns and operates multiple electronic devices such electronic devices are: 1) individually located at each point of delivery, 2) rated at less than 1000 watts or as specified in contract, and 3) operated with a continuous and constant load level year round. Each individual electronic device must not in any way interfere with Company operations and service to adjacent Customers. This optional service is not applicable to electric service for traffic lights, civil defense-fire sirens, or lighting. Company reserves the right to evaluate Customer requests for this optional service to determine eligibility. C

Fourth Revision

In place of metered usage for each device, Customer will be billed for the predetermined Energy usage in kWh per device. The Energy Charge shall equal the sum of the predetermined Energy usage for Customer's approved devices in service for the billing month multiplied by the Energy Charge applicable for the billing month.

DETERMINATION OF DEMAND: Unless otherwise established, the Billing Demand shall be the maximum Demand in kW as measured by a Demand Meter, for the highest 15-minute period during the month for which the bill is rendered.
