## *CoolSavings terms and conditions*

1. CoolSavings is a **free** program available to qualifying small commercial customers for cooling units served on the Small General Service or General Service Rates.
2. A customer must remain enrolled in the program for a minimum of one year from the date Otter Tail Power Company installs control equipment at the location of service.
3. Otter Tail Power Company will install, inspect, test, and maintain the radio receiver used to control the customer's air conditioning without charge. Participant must allow reasonable access to the radio receiver and any other company-owned equipment.
4. Enrollment continues automatically year to year until we receive notification of cancellation. After participating for a full year, a customer may cancel by calling 800-493-3299.
5. A participant must allow the company to control all central cooling equipment at the location of service.
6. Maximum control will not exceed 8 hours of control during a day or 300 hours during the summer season, which is June through September.
7. The company shall not be liable for any loss, cost, damage, or injury resulting from interruptions or restorations of service that may occur while a customer is participating in CoolSavings.
8. If a customer tampers with any load-management equipment located on the customer's property, the company may discontinue their participation in CoolSavings and may bill the customer for expenses to remove company equipment plus investigative charges.
9. Otter Tail Power Company reserves the right to deny participation or cancel enrollment in CoolSavings at any time. Reasons for denial or cancellation include, but are not limited to, excessive installation costs, oversized or undersized air-conditioning equipment, or abnormal utilization of equipment, including seasonal premises and other limited-use situations.
10. By applying, the customer authorizes Otter Tail Power Company to release their account information (name, address, phone number) to a third-party that is contracted by the company for installation of control equipment.
11. CoolSavings participants receive a credit of \$6/ton of cooling capacity per month for participating June through September. Credit applied may be prorated and may change by action of the applicable state regulatory bodies.
