

SMALL GENERAL SERVICE—Under 20 kW

DESCRIPTION	SECONDARY	PRIMARY
Metered Service – under 20 kW	M404	M405
Non-metered Service – 1000 watts or less CLOSED TO NEW INSTALLATIONS	M408	Not available

APPLICATION OF SCHEDULE: This schedule is applicable to three-phase residential Customers, and both single- and three-phase nonresidential Customers. This schedule is not applicable for outdoor lighting. Emergency and supplementary/Standby service will be supplied only as allowed by law.

RATE:

	SECONDARY SERVICE		PRIMARY SERVICE	
Customer Charge per Month:	\$18.50		18.50	
Monthly Minimum Bill:	Customer + Facilities Charges	Customer + Facilities Charges		
Facilities Charge per Month:	\$0.00		\$0.00	
	Summer	Winter	Summer	Winter
Energy Charge per kWh:	9.708¢/kWh	7.808¢/kWh	9.358¢/kWh	7.458¢/kWh

**NON-METERED SERVICE—SECONDARY ONLY—1000 WATTS OR LESS
—CLOSED TO NEW INSTALLATIONS—**

Customer Charge per Month:	\$4.50			
Monthly Minimum Bill:	Customer + Facilities Charges			
Facilities Charge per Month:	\$0.00			
	Summer		Winter	
Energy Charge per kWh:	8.235 ¢/kWh		8.235 ¢/kWh	

TERMS AND CONDITIONS: The Customer may remain on the Small General Service schedule as long as Customer's maximum demand does not equal or exceed 20 kW for more than two of the most recent 12 months. If the Customer achieves an actual demand of 20 kW or greater for a third time in the most recent 12 months, the Customer will be placed on the General Service schedule (Section 10.02) in the next billing month.

SEASONAL SMALL GENERAL SERVICE:

- These rates and regulations shall apply to Seasonal Small General Service without Voluntary Rate Riders.
- Seasonal Small General Service Customers will be billed at the same rate as Small General Service Customers, except as follows:

A one-time seasonal fixed charge of \$74.00 will be billed for each meter in addition to the rate provided above. The fixed charge will be included on the first bill rendered for each season.

Each Seasonal Small General Service Customer will be billed for the number of months each season that the property is in use, but not less than a minimum of four months, plus the seasonal fixed charge. At the option of the Company, meters may be read during the off-season and a bill will be rendered if energy recorded on the meter exceeds 400 Kilowatt-Hours. If the first bill of the season exceeds an average combined usage on all meters of 400 Kilowatt-Hours per month during the off-season months, the Customer, at the option of the Company, may no longer be eligible for Seasonal Small General Service.

Bills may be rendered on a two-month basis at the Company's discretion when the energy used exceeds 400 Kilowatt-Hours and more than 55 days have elapsed since the previous Meter reading.

DETERMINATION OF BILLING DEMAND: Unless otherwise established, the billing demand shall be the maximum demand in kW as measured by a demand meter, for the highest 15-minute period during the month for which the bill is rendered.

GENERAL SERVICE—20 kW or Greater

DESCRIPTION	RATE CODE
General Service – Secondary Service	M401
General Service – Primary Service	M403

APPLICATION OF SCHEDULE: This schedule is applicable to three-phase residential Customers, and both single and three-phase nonresidential Customers with a measured demand of at least 20 kW within the most recent 12 months. This schedule is not applicable for outdoor lighting. Emergency and supplementary/standby service will be supplied only as allowed by law.

RATE:

	SECONDARY SERVICE		PRIMARY SERVICE	
Customer Charge per Month:	\$27.00		\$24.00	
Monthly Minimum Bill:	Customer + Facilities + Demand Charges	Customer + Facilities + Demand Charges		
Facilities Charge per Month per annual max kW (min 20 kW):	\$0.97 /kW		\$0.65 /kW	
	Summer	Winter	Summer	Winter
Energy Charge per kWh:	7.123¢/kWh	7.469¢/kWh	6.884¢/kWh	7.161¢/kWh
Demand Charge per kW (min 80 kW):	\$3.63/kW	\$1.39/kW	\$4.02/kW	\$1.89/kW

TERMS AND CONDITIONS: A Customer with a Billing Demand of less than 20 kW for 12 consecutive months will be required to take service under the Small General Service schedule (Section 10.01).

DETERMINATION OF METERED DEMAND: The maximum kW as measured by a demand meter for any period of 15 consecutive minutes during the month for which the bill is rendered.

ADJUSTMENT FOR EXCESS REACTIVE DEMAND: For billing purposes, the metered demand may be increased by 1 kW for each whole 10 kVar of measured reactive demand in excess of 50% of the metered demand in kW.

DETERMINATION OF BILLING DEMAND: The billing demand shall be the greater of 20 kW or the metered demand adjusted for excess reactive demand.

DETERMINATION OF FACILITIES CHARGE: The facilities charge demand will be based on the greater of 1) 20 kW or 2) the largest of the most recent 12 monthly billing demands.

LARGE GENERAL SERVICE

Energy Charge per kWh:	4.355 ¢/kWh	4.473 ¢/kWh
Demand Charge per kW (min 80 kW):	\$8.58 /kW	\$7.63 /kW

DETERMINATION OF METERED DEMAND: The maximum kW as measured by a demand meter for any period of 15 consecutive minutes during the month for which the bill is rendered.

ADJUSTMENT FOR EXCESS REACTIVE DEMAND: For billing purposes, the metered demand may be increased by 1 kW for each whole 10 kVar of measured reactive demand in excess of 50% of the metered demand in kW.

DETERMINATION OF BILLING DEMAND: The billing demand shall be the greater of 80 kW or the metered demand adjusted for excess reactive demand.

DETERMINATION OF FACILITIES CHARGE: The facilities charge demand will be based on the greater of 1) 80 kW or 2) the largest of the most recent 12 monthly billing demands.

CONTROLLED SERVICE—INTERRUPTIBLE LOAD—CT METERING RIDER

(Commonly identified as Large Dual Fuel)

DESCRIPTION	OPTION 1	OPTION 2
CT Metering without ancillary load without Penalty	M170	NA
with Penalty	M170P	NA
CT Metering without ancillary load (short-duration cycling) without Penalty	M165	NA
with Penalty	M165P	NA
CT Metering with ancillary load	NA	M168C
CT Metering with ancillary load (short-duration cycling)	NA	M169C

AVAILABILITY: This rider is available for Customers with approved permanently connected interruptible loads; such loads are primarily the electric heating portion of dual fuel heating systems. Electric heating systems may include heat pumps. Domestic electric water heating, and/or other permanently connected approved loads other than the exceptions noted below in Option 2, will be interrupted during control periods.

When service to the electric space heating equipment on this rate is interrupted, the back-up heating system cannot be electric.

Option 1: Electric fans, pumps, and other ancillary equipment used in the distribution of conditioned air and/or water shall be wired for service through the Customer's firm service tariff.

Option 2: The Company retains the authority to allow a portion of the load used to deliver conditioned air and/or water to remain on during control periods in situations where 1) it is functionally or financially unfeasible to separately serve the equipment's control systems, or other critical ancillary equipment associated with this load, or 2) if the separation would violate the manufacturer's Underwriters Laboratory (UL) approval or other industry recognized operating standards.

During the control period the amount of ancillary load shall not exceed 5% of the metered maximum demand measured during any period within the most recent 12 months. (For example, although a minimal amount of fan and/or pump load may be allowed under this provision, it is not intended to be applied to larger loads such as the non-conditioned fan load on low-temperature grain drying.)

If the Customer does not have a back-up heating system, it is not automatic, or it is inadequate, then the Company requires a primary electric heating Customer served on an interruptible rate to complete a Controlled Service Agreement acknowledging that the Customer is aware of the potential for property damage.

RATE:

	OPTION 1	
Customer Charge per Month:	\$7.00	
Monthly Minimum Bill:	Customer + Facilities Charges	
Facilities Charge per Month per annual max kW:	\$0.18 /kW	
	Summer	Winter
Energy Charge per kWh:	4.574 ¢/kWh	4.350 ¢/kWh
Penalty kWh:	31.211 ¢/kWh	14.075 ¢/kWh
<i>During the Penalty Period, kWhs used will be measured and billed at the Energy Charge and Penalty listed above.</i>		

	OPTION 2	
Customer Charge per Month:	\$7.00	
Monthly Minimum Bill:	Customer + Facilities Charges	
Facilities Charge per Month per annual max kW:	\$0.18 /kW	
	Summer	Winter
Energy Charge per kWh:	4.574 ¢/kWh	4.350 ¢/kWh
Control Period Demand Charge per kW:	\$10.56 /kW	\$8.56 /kW

PENALTY PERIODS – OPTION 1 ONLY: Penalty periods are defined as periods when the Company signals to interrupt the Customer's load and the Customer's equipment does not shed the load. Installation of a dual register meter will be at the option of the Company. When a dual register meter is installed, penalty usage will be recorded on the penalty register and the total register of the dual register meters.

The penalty provision is not intended as a buy-through option. Under no circumstances should the penalty clause of this rider be interpreted as an approved buy-through option for service under this rider.

CONTROL CRITERIA: Service may be controlled up to a total of 24 hours during a 24-hour period, as measured from midnight to midnight. Short-duration cycling is approximately 15-minutes off/15-minutes on of appropriate cooling equipment during the Summer Season (June 1–Sept 30). Domestic water heating may be controlled up to 14 hours in a 24-hour period, as measured from midnight to midnight.

DETERMINATION OF FACILITIES CHARGE: The monthly measured demand will be based on the maximum 15 consecutive minute period measured by a demand meter for the month for which the bill is rendered. The facilities charge demand shall be based on the greatest of the current and preceding 11 monthly measured demands.

DETERMINATION OF CONTROL PERIOD DEMAND – OPTION 2 ONLY: The billing demand measured during the control period for which the bill is rendered shall be the maximum metered kW for any period of 15 consecutive minutes during the control period.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and control equipment.

CONTROLLED SERVICE—INTERRUPTIBLE LOAD**SELF-CONTAINED METERING RIDER**

(Commonly identified as Small Dual Fuel)

DESCRIPTION	RATE CODE
Self-Contained Metering	M190
Self-Contained Metering with Penalty	M190P
Self-Contained (short-duration cycling)	M185
Self-Contained Metering (short-duration cycling) with Penalty	M185P

AVAILABILITY: This rider is available for Customers with approved permanently connected interruptible load; such loads are primarily the electric heating portion of dual fuel heating systems. Electric heating systems may include heat pumps. Domestic electric water heating and/or other permanently connected approved loads other than the exceptions noted below, will be interrupted during control periods. Electric fans, pumps and other ancillary equipment used in the distribution of conditioned air and/or water shall be wired for service through the Customer's firm service tariff.

The Company retains the authority to allow a portion of the load to remain on during control periods in situations where 1) it is unfeasible to separately serve the equipment's control systems, or other critical ancillary equipment associated with this load, or 2) if the separation would violate the manufacturer's Underwriters Laboratory (UL) approval or other industry recognized operating standards. Although a minimal amount of fan and pump load may be allowed under this provision, it is not intended to be applied to larger loads such as the fan load on low-temperature grain drying.

When service to the electric space heating equipment on this rate is interrupted, the back-up heating system cannot be electric.

If the Customer does not have a back-up heating system, it is not automatic, or it is inadequate, then the Company requires a primary electric heating Customer served on an interruptible rate to complete a Controlled Service Agreement acknowledging that the Customer is aware of the potential for property damage.

DESCRIPTION	RATE CODE
Deferred Loads	M197
Deferred Loads with Penalty	M197P
Deferred Loads (short-duration cycling)	M195
Deferred Loads (short-duration cycling) with Penalty	M195P

AVAILABILITY: This rider is available for Customers with approved permanently connected deferred loads that can be served under the limited conditions provided; such loads are primarily electric water heating and thermal storage.

Deferred loads may include heat pumps, domestic electric water heating, and other permanently connected loads that can be interrupted.

Electric fans, pumps, and other ancillary equipment used in the distribution of conditioned air and/or water shall be wired through the Customer's firm service meter. The Company retains the authority to allow a portion of the load to remain on during control periods in situations where 1) it is unfeasible to separately serve the equipment's control systems, or other critical ancillary equipment associated with this load, or 2) if the separation would violate the manufacturer's Underwriters Laboratory (UL) approval or other industry recognized operating standards. The penalty provision is not intended as a buy-through option. Under no circumstances should the penalty clause of this rider be interpreted as an approved buy-through option for service under this rider.

CONTROL CRITERIA: The Customer will receive electric service from 10:00 p.m. until 6:00 a.m. each day. During all other hours, the Customer's load will be controlled.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and control equipment.

WATER HEATING CONTROL RIDER

DESCRIPTION	RATE CODE
Separately Metered Water Heating Control Service	M191
Water Heating Credit Control Service	M192

AVAILABILITY: This rider is available for Customers with electric water heaters requesting controlled service; refer to Section 14.00 for the Voluntary Riders—Availability Matrix.

RATE:

SEPARATELY METERED WATER HEATING CONTROL SERVICE—191		
Customer Charge per Month:	\$4.00	
Monthly Minimum Bill:	Customer + Facilities Charges	
Facilities Charge per Month:	\$0.00	
	Summer	Winter
Energy Charge per kWh:	6.793 ¢/kWh	5.808 ¢/kWh

WATER HEATING CREDIT CONTROL SERVICE—192	
Monthly Credit:	\$8.00

TERMS AND CONDITIONS FOR SEPARATELY METERED WATER HEATING CONTROL SERVICE—RATE 191: Service under this rate shall be supplied through a separate meter.

TERMS AND CONDITIONS FOR WATER HEATING CREDIT CONTROL SERVICE—RATE 192: The Customer will be compensated by receiving the water heating credit. The credit will be applied on the Customer's account, except the credit shall not reduce the monthly billing to less than the monthly minimum bill.

CONTROL CRITERIA: Service may be controlled for up to a total of 14 hours during a 24-hour period, as measured from midnight to midnight. Under normal circumstances the Company will schedule recovery time following control periods that approach 14 hours.

EQUIPMENT SUPPLIED: The Company will supply and maintain the necessary standard metering and/or control equipment.

VOLUNTARY RENEWABLE ENERGY RIDER (Commonly identified as *TailWinds* Program)

DESCRIPTION	RATE CODE
Voluntary Renewable Energy Rider	M720

AVAILABILITY: This rider is available to all Customers on a voluntary basis for those averaging 100 kWhs or more of usage per month. The renewable energy service provided under this schedule is subject to the availability of renewable energy designated to it, as determined by the Company, and is made available on a first-come, first-serve basis.

RATE: The charge for the renewable energy under this schedule is \$1.30 per 100 kWh contracted block. This charge per 100 kWhs is in addition to the applicable rate schedule currently serving the Customer. All charges under existing tariffs remain in effect.

This rider is not subject to the Energy Adjustment Rider, Section 13.01, and the total contracted kWh will be proportionately allocated to the energy usage on the other metered rates on this account.

TERMS AND CONDITIONS:

- Service under this schedule shall be for a period not less than 12 consecutive months, automatically renewed monthly. After the first full year of service, Customers may cancel service under this schedule by providing oral or written notice to the Company of their intent to no longer take service no less than 30 days prior to the Customer's normal monthly billing date.
- The schedule is unavailable to Customers where the Customer: 1) has received one or more disconnect notices within the last twelve months or 2) has been disconnected within the last twelve months.
- Where the renewable energy under the schedule is unavailable to the Company for more than 30 consecutive days, the Company will provide an appropriate credit on the Customer's next monthly statement.

Visit www.otpc.com for all available rates.

Last revision 11/19

Minnesota

electric rate schedules

General service

This brochure briefly summarizes rate schedules based on rates applicable to your type of service that have been the basis for billing since February 1, 2019. The schedules indicated in this brochure do not include sales tax, adjustments, franchise fees or mandatory riders.

More specific detail on rates and regulations concerning your electric service is available from your local Otter Tail Power Company office at 1-800-257-4044 or on our website at www.otpc.com.

Upon request, Otter Tail Power Company will assist you in determining billing for specific load conditions under various rate schedules.

Energy adjustment rider

A variable charge added to or deducted from the bill each month to adjust for current fuel and purchased-power costs. This charge is in addition to the rates included in this brochure and is itemized separately on the service statement, and does not include any markup.

Customer connection charge

A \$15 customer connection charge applies to any new customer, name changes (new named individual) at existing points of service, and reconnection following temporary disconnection at the customer's request. If disconnected for nonpayment, a reconnection charge consisting of the customer connection charge plus overtime charges for the amount of time required, or a minimum of two hours, whichever is greater for reconnection outside of regular business hours will be required. Regular business hours are Monday through Friday, 8 a.m. to 5 p.m.

Late payment charge

Accounts paid late are subject to a late payment charge of 1.5 percent of the unpaid balance (minimum \$1).

NSF check charge

A \$15 charge will apply if any bank payment is returned.

Renewable resource adjustment

Recovers investments and expenses associated with adding renewable energy facilities to Otter Tail Power Company's generation resources. These renewable energy resources are part of our least-cost resource plan and help to meet the Renewable Energy Objectives set forth by the legislature.

Rates listed in this brochure are subject to the following conditions:

RULES AND REGULATIONS: Terms and conditions of this electric rate schedule and the General Rules and Regulations govern use of this service.

MANDATORY AND VOLUNTARY RIDERS: The amount of a bill for service will be modified by any Mandatory Rate Riders that must apply and by any Voluntary Rate Riders selected by the Customer, unless otherwise noted in this schedule. See sections 12.00, 13.00, and 14.00 of the Minnesota electric rates for the matrices of riders.

DEFINITIONS OF SEASONS: Summer: June 1 through September 30.
Winter: October 1 through May 31.
