# Be ready when summer heats up.

We know it's cold outside, but now's the time to enroll in **CoolSavings**.

## How it works:

- A company representative installs, without charge, a radio receiver on the outside of your home that automatically controls your air conditioner.
- When demand for electricity is high or when system conditions warrant, we cycle your air conditioner 15 minutes on and 15 minutes off.
- You receive a \$7 monthly credit on your service statements, June through September.
