

## Start saving

Find more of our company's money- and energy-saving programs for your business at [otpc.com](http://otpc.com).

## Make it a year to save!

Give your air conditioner a coffee break during summer peaks and we'll give you a bill credit each month.

# CoolSavings

# Be ready when summer heats up.

We know it's cold outside, but now's the time to enroll in **CoolSavings**.

## How it works:

- A company representative installs, without charge, a radio receiver on the outside of your business that automatically controls your air conditioner.
- When demand for electricity is high or when system conditions warrant, we cycle your air conditioner 15 minutes on and 15 minutes off.
- Dual-stage air conditioners will be allowed to have the first stage run without interruption, while the second stage is interrupted during a full control event.
- You receive a \$6 credit per ton of connected central cooling load on your service statements, June through September.

**Enroll now!**  
[otpc.com/ACSavings](http://otpc.com/ACSavings)

**Or call our Idea Center at  
800-493-3299 for an application.**

**Window or ductless air-conditioning units are not eligible for the program. Units must be served on a General Service or Small General Service Rate to be eligible.**
