

Annual update of the Energy Efficiency Partnership Cost Recovery Rider

On May 1, 2018, Otter Tail Power Company filed for approval of a \$0.00017 per kWh increase to the Energy Efficiency Partnership (EEP) Cost Recovery Rider. The EEP Cost Recovery Rider was established on February 1, 2007, to recover the company's costs of South Dakota energy efficiency investments and education. The filing can be found at puc.sd.gov/Dockets/Electric/2018/.

Customers may join with 24 others to file written objection to this increase and to request the South Dakota Public Utilities Commission suspend the rate and hold a public hearing on the filing.
