

**Oh, hi.
I'm an LED. And I'm
one of the easiest ways to
save money throughout
your home.**

ENERGY STAR LED bulbs offer outstanding energy efficiency, long-lasting performance, and just-right brightness, all in one package. Compared to 60-watt incandescent bulbs, you'll:

- **Save money**—approximately \$80 during the LED bulb's lifetime.
- **Save energy**—by using 75 percent less electricity.
- **Save time**—since LED bulbs last about 20 times longer.

Find special pricing on ENERGY STAR®-qualified LED bulbs at several participating retailers.
