

Notice to Otter Tail Power Company customers

On June 10, 2020, the North Dakota Public Service Commission approved our request to update the Generation Cost Recovery Rider (GCRR) rate. The GCRR recovers costs for constructing Astoria Station, a natural gas-fired, electricity generating plant. The approved rate is 6.041 percent of your base bill, and we'll include it as a part of the Generation Rider line on and after July 1, 2020.

The following table shows the approved rate and the incremental impact to a typical customer's bill.

	Average kWh's per month	Proposed rate	Monthly incremental impact
Residential	1,000	6.041%	\$2.70
Large General Service	400,000 kWh & 1,000 kW	6.041%	\$675.85
