

2021 Energy Adjustment Rider Rates

On November 19, 2020, the Minnesota Public Utilities Commission (MPUC) approved our forecasted monthly rates for your Energy Adjustment Rider. This rider includes the cost of fuel we use to generate electricity to serve our retail customers, transportation costs for that fuel, and costs we incur to buy energy to supplement our own power plants.

The monthly Energy Adjustment Rider rates applied to your bill are contingent upon MPUC approval of our request for Interim Rates in our November 2, 2020, Rate Review Filing. Please visit our website for monthly 2021 Energy Adjustment Rider rates expected to begin January 1, 2021.
