Custom Efficiency Grants

Propose an energy-saving project for your business

Energy-saving ideas

You know your business best—and you know where there's room for energy-saving improvement. Possibilities include:

- Changing your compressed-air system.
- Adding chiller equipment.
- Making process improvements.
- Installing mechanical vapor recompressors.
- Adding adjustable-speed drives.

We can help you complete your projects

Submit a proposal for improving your business's efficiency, and we may provide a custom grant to help you get your project done.

Grant amount is based on energy savings, demand savings, and project costs.
