

Rebates available

Insulation

Stop losing heat—and money—by upgrading your home's insulation.

It pays to insulate

A well-insulated home doesn't just keep you warmer in the winter. It will keep you cooler next summer too.

You may qualify for rebates of up to 20 percent of your insulation materials and installation cost if you:

- Are a residential electric heating customer.
- Employ a contractor for insulation services.

Rebates apply to attic bypass sealing and insulation, wall insulation (when qualifying R values are reached), air-sealing, and weather-stripping only.

The maximum rebate is \$1,400.
