Notification of Rights and Responsibilities under Minnesota Cold Weather Rule

The State of Minnesota created the Cold Weather Rule to protect residential customers from disconnection if they cannot pay their bills in full. This protection lasts from October 1 through April 30. You may qualify for this protection if you meet both of the following conditions:

1. The disconnection would affect your main heating source.
2. You and Otter Tail Power Company agree to a payment plan.

If you receive energy assistance, you are eligible for Cold Weather Rule Protection.

The Cold Weather Rule does not forbid all winter disconnections. If you receive a Notice of Proposed Disconnection this winter, you must act promptly.

**Call Otter Tail Power Company
at 800-257-4044 or 218-739-8877
to sign up for Cold Weather Rule Protection.**

Avoiding disconnection

If you receive a notice of proposed disconnection this winter, or you're unable to pay your bill in full, you must call Otter Tail Power at 800-257-4044 or 218-739-8877 immediately to set up a payment plan under Cold Weather Protection.

Your service will be subject to disconnection without further notice and you would no longer qualify for protection under the Cold Weather Rule if you do not make the agreed upon payments. If you cannot keep your original payment plan, call Otter Tail Power immediately and make a new payment plan to avoid disconnection.

Reconnection

If your power has been disconnected and the Cold Weather Rules are in effect, you can have your power reconnected by calling Otter Tail Power at 800-257-4044 or 218-739-8877 during regular business hours to set up a payment plan. If you cannot keep your original payment plan, call Otter Tail Power immediately and make a new payment plan to avoid disconnection.

For more information, call Otter Tail Power at 800-257-4044 or 218-739-8877.

Proposed disconnection

If you receive a Notice of Proposed Disconnection, you also will receive:

1. Information about your rights and responsibilities.
2. Information about ways to reduce energy use.
3. A list of agencies that help pay utility bills.
4. A list of weatherization providers.

Cold Weather Rule payment plan

You have the right to a payment plan during the cold-weather months. This payment plan must be agreeable to you and to Otter Tail Power.

If your household income is:

- At or below 50 percent of the state median income, you are not required to pay more than 10 percent of your monthly household income.
- More than 50 percent of the state median income, you may make a payment plan with Otter Tail Power.

Most Cold Weather Rule payment plans last until April 30 unless you make other arrangements with Otter Tail Power. Your service could be disconnected if you have a past-due balance on April 30 and do not make and keep a new payment plan.

If you and Otter Tail Power cannot agree on a payment plan, an appeal can be filed with the Minnesota Public Utilities Commission (MPUC). This appeal must be filed with the MPUC within ten working days from the date the appeal form is mailed by the utility. The MPUC will help you set up a payment plan, and your service will stay on during the appeal process. Contact the Commission at consumer.puc@state.mn.us or 800-657-3782.

If you and Otter Tail Power agree on a payment plan and you continue to make your payments, Otter Tail Power will not disconnect your service.

You may qualify for our Even Monthly Payment (EMP) plan that averages your billing over 12 months.

Third-party notice

Otter Tail Power offers all customers the opportunity to have a third party notified if their electric service is about to be discontinued. This program can be especially helpful for the ill, senior citizens, those who live alone, and customers who do not read English. The purpose of this program is to notify a third party, as well as the customer, that a Notice of Proposed Disconnection has been sent.

A third party could be a friend, relative, church member, or community agency. The third party receives copies of all disconnection notices Otter Tail Power mails to the customer but is NOT required to pay the bills. The third party is authorized to exchange information about the customer and make a payment plan with Otter Tail Power on the customer's behalf. This helps avoid the hardship that would result from disconnecting the customer's service.

If you want to name a third party, please fill out the Third-Party Notice form and return it to Otter Tail Power.

Request for third-party notice

(Please print)

Customer's name _____

Address _____ Phone _____

City _____ State _____ ZIP _____

Account number from statement _____

I agree that Otter Tail Power Company may exchange information about my account with the person named below.

Customer signature _____ Date _____

Name of third party to be notified _____

Address _____ Phone _____

City _____ State _____ ZIP _____

Third-party signature _____ Date _____

(This request must include the third party's signature.)

Otter Tail Power will send a copy of any Notice of Proposed Disconnection on the above account to the named third party at the address listed. Otter Tail Power assumes no liability for failure of the third party to receive or act upon the notice. Complete this form, detach it, and mail it to P.O. Box 496, Fergus Falls, MN, 56538-0496.

Ways to save

These simple practices can save you 5 percent to 10 percent on your annual utility bill. In most cases, all they cost is a little time.

Low-cost improvements

- Use LED light bulbs wherever possible.
- Caulk and weather strip attic and basement spaces, fireplaces, wall outlets, pipes, and ducts to reduce leakage of conditioned air.
- Cover windows with plastic.
- Install an insulated wrap on an electric water heater when it's in an unheated area.
- Reduce water use in showers and at faucets by installing flow restrictors.

No-cost improvements

- Reduce your water heater temperature setting to 120°F or 140°F for a dishwasher.

- Set your thermostat as low as is comfortable in the winter and as high as is comfortable in the summer. Each degree above 68°F in the winter can add three percent to heating costs. Each degree above 72°F in the summer can lower cooling costs by three percent.
- Turn off lights when not in use.
- Turn off TVs, DVD players, gaming sets, and other appliances and electronics when not in use.
- Clean the lint filter after each dryer load. Set the dryer controls to prevent over drying clothes.
- Close windows tightly and use locks to help prevent cold air from leaking in during the winter and cool air from leaking out in the summer.

Visit otpc.com for more ways to save.
