

2022 Energy Adjustment Rider Rates

The Minnesota Public Utilities Commission approved our forecasted monthly rates for your Energy Adjustment Rider. This rider includes the cost of fuel we use to generate electricity to serve our retail customers, transportation costs for that fuel, and costs we incur to buy energy to supplement our own power plants.

We've included 2022 monthly rates on the back of this insert. Each customer class receives a separate Energy Adjustment Factor Rate. We calculated these rates by multiplying the approved Energy Adjustment Rider Rate by the Class Energy Adjustment Factor Ratio. For more information, see page 2 of your Electric Rate Schedule at otpc.com.
