

Insulation

Add comfort where it counts.

Rebates are available

A smart home improvement

Heating and cooling your home costs money. Save it (and energy!) when you upgrade your insulation.

You may qualify for rebates of up to 20 percent of your insulation materials and installation costs if:

- You're a residential electric heating customer.
- You employ a contractor for insulation services.

Rebates apply to attic bypass sealing and insulation, wall insulation, and air sealing and weatherstripping. Homes must achieve qualifying R values.
