

Customer notice

The Minnesota Public Utilities Commission has approved our request to implement updated adjustment factors to our Revenue Decoupling Mechanism (RDM) Rider.

A decoupling adjustment is a credit or surcharge that separates revenues from changes in energy sales, offsetting the impact of reduced sales due to promotion of energy conservation. This charge applies to customer classes defined in Minnesota Rate Schedule 13.10.

The approved rate adjustments shown below begin October 1, 2025, for all classes of customers subject to adjustments.

REVENUE DECOUPLING ADJUSTMENT (Refund) / Surcharge

Energy adjustment
per kWh:

kWh

Basket #1	\$0.003133
