

Facility Turn-key Efficiency program

Looking for ways to manage energy costs in your commercial, industrial, or public-sector facility?

Apply today for our Facility Turn-key Efficiency (FTE) program! We've designed our FTE program for customers to identify energy-saving opportunities. We'll assist with implementing these opportunities and provide extra cash incentives for your commitment to completing them.

An energy engineer will visit your facility and perform a whole-building assessment investigating all of your energy-consuming systems including:

- Lighting
- HVAC
- Refrigeration
- Process systems
- Building envelope
- Controls

From these findings, we'll develop a project list identifying low/no cost projects as well as recommended capital improvements to reduce your operating costs and improve energy performance. You'll receive a report detailing each opportunity and its estimated cost, energy savings, and payback—including energy-efficiency rebates from our company.

After your assessment, we'll help you take the next steps toward implementing the opportunities identified. Our level of assistance is completely customized according to your needs and may include project scoping and evaluating bids to filling out rebate applications.

By signing up for an assessment through our FTE program, you're eligible for a 50% bonus incentive on top of our standard rebates for any qualifying measure implemented within 18 months of receiving your facility assessment report.

Program details

- Schedule your free (usually a \$5,000 value) facility energy assessment with Otter Tail Power Company.
- Post-assessment consulting and implementation support is free of charge.
- Assessments generally take 3-4 hours on site depending on the size of your facility.
- Program participants are eligible for up to 50% bonus incentives* for qualifying measures implemented within 18 months of report delivery.

* Total incentive per measure cannot exceed 75% of project cost.

I'm interested! How do I apply?

Fill out an FTE application form on our website at otpc.com or by scanning the QR code, and return it to one of our representatives.
