Otter Tail Power Company Smart Thermostats Rebate Program Requirements and Guidelines

Otter Tail Power Company reserves the right to deny any rebate which does not meet program guidelines included on this application. Program may be discontinued or modified at any time.

Qualifying customers

This program is available to Otter Tail Power Company Minnesota and South Dakota residential customers who have installed qualifying equipment in the home at the account location.

Rebate details

Customer requesting rebate must purchase and install a **new qualifying smart thermostat that controls their heating and/or cooling system.**

Thermostat must be able to be remotely controlled via an internet connected device such as a smartphone, tablet, or remote computer.

This program will provide a rebate for the installation of a qualifying smart thermostat as indicated in the table on page one. Rebates will not exceed original purchase price of smart thermostat.

Customer is eligible for only one rebate per account. If, for example, a Tier III Line voltage thermostat cost \$75 and you purchase two thermostats to control your primary heating system, you would be eligible for a \$100 rebate. If you only purchase one thermostat, the rebate would be capped at \$75.

Qualifying smart thermostats include: 1) those listed on the front of this form, or 2) visit our website at otpc.com/SmartThermostats for the most up to date list, or 3) if not listed contact our Idea Center at 800-493-3299 for pre-approval of other brands/models.

Otter Tail Power Company reserves the right to inspect installations before or after issuing a rebate.

Qualifying equipment must be purchased and installed prior to December 31 to qualify for a current year rebate. Rebates on applications received after December 31 are subject to change. Rebate applications received after March 31 for prior year installations will not qualify for a rebate.

Our program requires you to submit a completed rebate application and a dated sales receipt/invoice before Otter Tail Power Company will issue a rebate.

Otter Tail Power Company issues cash rebates in the form of checks, not energy bill credits. Allow 6 to 8 weeks for rebate processing.

Otter Tail Power Company reserves the right to limit any rebate. Acceptance of the application does not guarantee payment of a rebate. You will be notified if your application **has not** been accepted, pending final review.

Qualification for a rebate does not imply any Otter Tail Power Company representation or warranty of any work performed. Otter Tail Power Company also does not warrant that actual energy savings will be equal to the contractor's estimate. Customer agrees that Otter Tail Power Company shall not be responsible or liable for any personal injury or property damage caused by installation.

The rebate program is subject to change or cancellation without notice.

Please visit us at otpc.com/SmartThermostats or call our Idea Center at 800-493-3299 to determine whether any program changes have occurred.

Limit one rebate per customer, per premise, per home.
